CAREER OBJECTIVE

I am a Computer Engineering student with a good academic record and a passion for frontend web development. I seek opportunities to apply my skills in HTML5, CSS3, JavaScript, React.js, and modern frameworks. I am eager to contribute to impactful projects and continuously expand my knowledge in web technologies.

SKILLS

Languages: HTML, CSS, JavaScript, SQL

Library / Frameworks: React, Tailwind CSS, Bootstrap, jQuery,

Developer Tools: Github, VS Code, Figma, Appwrite.

PROJECTS

Blog-App - ⦿   **March - 2024**

- Learn to create a modern blog app using React for the frontend, Tailwind CSS for styling, and Appwrite as the backend service.

- Develop features for creating, updating, and deleting blog posts with seamless integration.

e-commerce website ⦿   **February - 2024**

- Crafted a dynamic website leveraging React.js with CSS for styling, incorporating React Hooks for state management, React Router for navigation, and Firebase database for real-time data storage and retrieval.

EDUCATION

B.Tech in Computer Engineering   **CGPA 6.8**

RK University, Rajkot   *2021 - present*

HSC - GSEB   **Percentage: 74%**

Dev international school, Junagadh   *2019 – 2021*

CERTIFICATE

- HTML/CSS : Sololearn

- Javascript : Great Learning

- Ideathon Hachathon Certificate

- SQL : Infosys Springboard
